

LINK TO DOWNLOAD THE LYRI APP:

- APP STORE (APPLE): <https://goo.gl/MszNpf>
- GOOGLE PLAY (ANDROID): <https://goo.gl/7P2FOn>

DESCRIPTIVE TEXT:

“Lyri” is an app that enhances the theater experience by providing real-time libretto and show plot translations in multiple languages on your smartphone or tablet. It aims to transform a common device into an intelligent tool for spectators. Lyri offers show synopses, character information, and language options, complementing traditional surtitles without disrupting nearby viewers

INSTRUCTIONS FOR USE:

1. Download the "Lyri live" app on your smartphone/tablet from the app store, or by scanning the QR-Code at the event location;
2. Select the show in progress;
3. The sung lyrics will scroll automatically.

It is recommended to download the application before going to the event and before the ceremony begins.

At the event location, please remember that you are required to set your smart device to silent mode.

EVENT NOTES AND OPERATION OF THE LYRI APP:

If you download the app now, you will already find the August 1st event already present in the events list (see screenshot below)

It will be possible to enter the event by clicking on it only one hour before the event.

Once entered the event, the users will be able to choose the language they prefer from the 7 present (Italian, English, French, German, Spanish, Chinese and Russian).

The opening speeches and the libretto of the opera arias will be synchronized in real time.

LED WALLS BEHAVIOR:

During the opening speeches, only the name of the speaker in English will be projected on the LED walls (e.g. Roberto Gualtieri - Major of Rome).

During the opera arias, the texts of the libretto in Italian and English will be projected on the LED walls, synchronized with the music.
